STRIKERS FOUND HANGED; TWO OTHER MEN FLOGGED

FRENCH IN DORTMUND AND CONTROL ALL RUHR OUTLETS INTO GERMANY

Troops in Area Estimated at Nearly 70,000; Workmen at Their Places and Plants Going at Full Blast, While Mine Operators Watch French Moves.

INDUSTRIAL LEADERS ORDERED TO MEETING

"If Germans Don't Come to Terms They'll Get a Taste of What They Gave Belgium and Northern France," Say French.

By the Associated Press. DORTMUND, Jan. 16.—The French general headquarters has information that 25,000 men of the German Reichswehr are concentrated south of Münster, less than 25 miles north of Lünen, to the north of Dortmund. The French have advanced to both Dortmund and Lünen, and the outskirts of the French and German front at some points are only from eight to 10 miles apart.

The French, by advancing to Dortmund and Lünen, passed out of the neutral zone fixed by the Versailles treaty on the right bank of the Rhine, from which German regular troops are barred into territory where the Reichswehr holds sway. The French are continuing to send up reinforcements which are taking up positions behind the River Lippe.

The occupation of the Ruhr basin is now complete, and the French declare that not a single point of coal can get out of the Ruhr into the rest of Germany without their checking it up for coal tax.

German Industrialists Invited to Conference Under Threat.

By the Associated Press. ESSEN, Jan. 16.—The French now control every outlet from the Ruhr into Germany, whether by rail or water. The lines were extended today through Dortmund, an industrial city 10 kilometers northeast to Lünen on the Lippe and thence to Witten, which is seven kilometers south of Dortmund.

Dortmund, Westphalia, on the Ems, is situated in the midst of a great coal field and has a population of more than 150,000.

The troops which have been pouring into the Ruhr are estimated now to be close to 70,000. They have entered the basin, and every bridge is guarded with machine guns, sentries are all crossroads and the strategic points are firmly held. The highways are choked with armored cars, machine-gun companies and batteries of 75s are moving up to the limits of the new occupied areas.

The workers, excepting for a half-hour's strike yesterday, ordered from Berlin, which was enforced throughout the Ruhr, show no disposition to quit work, and all the furnaces and steel plants which line the road from Essen to Muelheim, Duisburg and Düsseldorf are going at full blast.

The Ruhr's wine operators, furnished by the French, have led to wait and see what France will do, their spokesmen said today.

Called to interference. As one director of the owners, did not expect the occupation in the first place and now that it has come to it only remains for them to resist further action by the economic commission. The operators regard the occupation as a breach of the Versailles treaty and declare that any confiscation of private property, such as the mines, will constitute a violation of that agreement. Whatever the outcome of the conference on Page 3, Column 3.

ELLIS JURY TO GET ORAL STATEMENTS, COURT INDICATES

Prisoner Did Not Seem to Be "Under Duress" After Signing of Supplemental Confession, Says Judge.

DEFENSE ATTORNEYS EXAMINE WITNESSES

Physician Testifies That Ellis Admitted Killing to Him Five Days After the Murder.

Oral statements attributed to Albert Ellis, on trial for the second time for killing his former fiancée, Edna Ellis, which were made after he had been taken out of direct police custody, will be permitted to go to the jury, Circuit Judge Grinn indicated this afternoon.

When the State this afternoon concluded its testimony given in the absence of the jury, so that the court might determine whether the alleged confessions were given under police duress, Judge Grinn said that what occurred after the signing of Ellis' supplemental confession, and in the city jail, does not appear to have been "under duress." This court had previously announced that the written confessions of Ellis and his statements to reporters on the day of the confession, Nov. 7, 1922, would not be permitted to go to the jury.

Supreme Court Ruling.

In reversing the original conviction and life sentence of Ellis, the State Supreme Court held that the trial court had erred in admitting in evidence written confessions of the defendant, which appeared to have been given under duress.

Attorneys for the defense this afternoon began examination of witnesses, in the absence of the jury, in an effort to convince the court that none of the oral admissions of Ellis should be permitted to go to the jury.

The jury was excused Saturday, so that the court might hear testimony on the question of duress. The jury is held together, members being permitted to read matter not pertaining to the case.

Dr. Francis M. Barnes, a specialist in nervous diseases, testified this morning that Ellis admitted the killing to him Tuesday, Nov. 9, 1922, in the city jail.

Asked Ellis About Treatment.

Dr. Barnes testified that he went to the jail at the request of Miss Carol Bates, representing the Missouri Valley League, to see how Ellis was being treated. He said Ellis told him of having been slapped twice when he was in police custody. Ellis' remarks were indefinite, Dr. Barnes said, and he asked him to illustrate the manner in which he had been slapped. As Ellis represented that the slaps were back-handed ones, asked why the policemen slapped him, Ellis replied that he was not getting from him what they wanted. Otherwise, he said, he had not been mistreated, except that he was called a liar several times.

"Was your confession the truth?" Dr. Barnes said he then asked Ellis, and the prisoner replied that it was. The physician asked Ellis why he had killed Edna Ellis, and the prisoner replied that he had been going with her, and that she had turned him down.

"Did he seem reluctant in telling this?" Judge Grinn asked the witness. "No," was the reply. "He seemed self-satisfied and somewhat boastful." He said Ellis had related details of the crime to him, the details being those given in previous testimony as told to others. Dr. Barnes said he saw no marks or bruises except a slight discoloration near the left eye, and that he saw no bloody ears. He said he was with Ellis an hour and a half, and that Jail Warden McCully was in the prisoner's presence perhaps 20 minutes of that time. Attorney William Moffitt Bates, representing Ellis, asked as to the number and proximity of jail guards, but Dr. Barnes did not recall seeing any guards near Ellis.

Testimony of Three Witnesses as to Attackes by Ellis Heard Yesterday.

Testimony of three witnesses was heard by Judge Grinn yesterday as to purported oral admissions of the prisoner. Continued on Page 3, Column 3.

DEFENDANTS ARE SO THICK THAT COURT DOORS ARE LOCKED

About 200 and Their Bondsmen Unable to Squeeze into Judge Farris' Room.

Doors of the Federal Court had to be locked this morning to stop the jam, when the largest crowd of defendants that has reported to the court put in an appearance, with their bondsmen, to report on their bonds.

Standing room was exhausted within the courtroom and about 200 defendants and bondsmen were forced to wait in the corridors after the doors were locked.

The approximately 500 defendants who appeared all are under criminal charges, about 300 of them in liquor cases. The bonds originally made for them were returnable today.

Judge Farris learned that some of those appearing to report had not been indicted and no informations had been drawn against them. He then ordered a continuance of all bonds, including those of defendants already indicted, until March 21. The number of defendants appearing on dates set for bond reports has been growing steadily for the last 18 months, but the crowd today surpassed all previous ones in numbers.

ALTON B. PARKER, 70, CANDIDATE FOR PRESIDENCY IN 1904, WEDS BRIDE IN CEREMONY SOLEMNIZED AT NEW YORK HOTEL WAS MISS AMELIA DAY CAMPBELL.

NEW YORK, Jan. 16.—Judge Alton B. Parker, 70, Democratic candidate for the presidency in 1904, and Miss Amelia Day Campbell were married at the Hotel Berkeley this afternoon by the Rev. John Ronch, pastor of Calvary Baptist Church.

Parker is 70 years old. His first wife, who was Mary L. Schoonmaker and whom he married in 1873, is deceased. He has two daughters and a daughter is the wife of the Rev. Charles Mercer Hall.

Parker's bride is 51 years old, the daughter of Andrew Arthur Campbell, a well-known St. Louis newspaper man in Cambridge, N. Y. This is her second marriage. She obtained a divorce from Edward Burton-Styles on Aug. 11, 1902.

MAN FOUND DEAD ON TRACK HAD BEEN ROBBED OF WAGES

Body of Stephen H. Gaston, 39, Was Discovered Early Sunday on Creve Coeur Car Line.

INDICATIONS THAT HE RESISTED ROBBERS

Pockets Turned Inside Out—Gash in Head Apparently Was Inflicted by Blunt Instrument.

County authorities today advanced the theory that Stephen H. Gaston, 39, of Spring and Eads avenue, St. Louis County, whose body was found on the Creve Coeur street car line just west of Woodson road, at 2 a. m. Sunday, was murdered during a robbery and his body placed on the tracks to conceal the crime.

A coroner's jury at Kirkwood yesterday returned an open verdict. F. H. Driemeyer, conductor of the car whose crew found the body, testified the body was lying with the front trunk just above Gaston's head, but not touching it. Driemeyer said, however, that the man was facing the direction from which the car approached.

An autopsy disclosed a fracture of the skull in two places and a cut on the forehead.

Pockets of the man's clothing were turned inside out and his pay, drawn Saturday afternoon, was missing. The sheriff's office is working on the theory that the man was struck on the head while resisting efforts to rob him. A four-inch gash in the scalp indicates the man was struck by some blunt instrument.

Elmer J. Schwartz of 4462 A Cook avenue testified that he saw Gaston downtown Saturday afternoon and that he appeared to be in normal condition. Gaston's clothing shows that he made a deposit of \$1 in his bank Saturday. Schwartz said Gaston was in the habit of depositing \$1 and drawing the rest of his pay each Saturday.

When Gaston's body was found a pair of women's shoes were tied around his waist by the laces.

A cousin of Gaston said he habitually wore women's shoes and stockings, because his feet were very small and he had difficulty in being fitted with men's shoes.

Man Slain and Placed on Railroad Track in Texas.

EL PASO, Tex., Jan. 16.—West Texas peace officers are searching for men in an automobile, believed to be tourists, whom they accuse of murdering an American, about 25 miles from El Paso.

The man was hit on the head with a bat, and a cap, drawn tightly over his head and his body placed on a railroad track. A train stopped before reaching the body. The body was buried without being identified.

FAIR TONIGHT AND TOMORROW; TO BE COLDER TONIGHT

THE TEMPERATURES.

ALBERT L. REEVES NAMED FOR FEDERAL JUDGSHIP

Senator Spencer, pleased by appointment, says he expects Garache to get other place.

Special to the Post-Dispatch. WASHINGTON, Jan. 16.—Albert L. Reeves of Kansas City, a commissioner of the Missouri Supreme Court, was nominated by the President today to be a Federal Judge of the Western Missouri District. Senator Spencer expressed satisfaction with the nomination and predicted that Reeves would be confirmed by the Senate without delay.

"I have known Mr. Reeves for 25 years," said Spencer. "He is a Christian gentleman of high character and a lawyer of great ability."

Reeves, 42, is a native of Missouri. He was educated at the University of Missouri and at the University of Kansas. He has been a member of the Missouri bar since 1898. He was a member of the Missouri Supreme Court from 1912 to 1918. He was a member of the Missouri State Bar Association and the Missouri Judicial Association.

He said that he expected Garache's name would be sent to the Senate very shortly after the return of Washington of Attorney-General Daugherty from Ohio this week or next. Garache is being backed by Spencer against considerable opposition.

CITIZENS' COMMITTEE TAKES CHARGE AT HARRISON, ARK.

Finding of Body Hanging to Bridge Follows "Roundup" of M. and N. A. Strikers After Series of Bridge Burnings and Destruction of Other Property.

(Special by Long-Distance Telephone to the Post-Dispatch.)

HARRISON, Ark., Jan. 16.—In a reign of lawlessness incident to the strike of about 600 employees of the Missouri & North Arkansas Railroad, several hundred citizens from this and surrounding counties, calling themselves a committee, today hanged E. C. Cregor, striking railroad shopman, and flogged two citizens of Harrison, George O'Neal, proprietor of the Midway Hotel and a former policeman named Raash.

Mayor J. L. Clute telegraphed Governor McRae that a mob had taken possession of the town and requested that troops be sent at once to restore order.

Gov. McRae, on authorization of the Legislature, late today ordered an infantry company to proceed to Harrison from Little Rock.

The citizens' committee, armed with shotguns, rifles and revolvers, and reinforced by about 50 deputy sheriffs, took complete charge of the town at dawn and patrolled the streets and shops of the Missouri & North Arkansas Railroad, which are here. At noon the Mayor was informed by the committee that there would be no need for troops, as the committee members would disperse and go to their respective homes tonight.

Town Marshal Ordered to Go.

The Town Marshal was ordered to leave town by the committee, and a report was current that Mayor Clute and members of the City Council also had been ordered to leave, but Mayor Clute said that neither he nor the Councilmen had been told to go, but that he understood the Marshal had received such a message.

The railroad is operating about 50 miles each way from Harrison today. Nearly all the men who constituted the citizens committee came into Harrison on its last evening and today.

Cregor was taken from his home early today and hanged after he is alleged to have fired into a crowd that sought to arrest him, wounding a man named Green, brakeman on the Missouri & North Arkansas. His body was found swinging from a trestle in the east part of town at 7 a. m. today. The body was clad in night clothing.

O'Neal is said to have been whipped because he signed the bond of a striker who was arrested. He and Raash were bound and severely whipped.

U. S. Deputy Marshal in Town.

A United States Deputy Marshal from Fort Smith arrived here today to look over the situation with a view to placing the railroad property under Federal guard. He came here in response to an appeal by operators of the road.

The citizens are said to have become enraged at the burning of trestles and bridges and other acts of sabotage that have interfered with operation of the road since the strike, which was originally called early in 1921 to prevent decreased wages. The citizens formed themselves into a committee last evening and began patrolling the town and seeking to arrest men suspected of either having participated in the burning of trestles in the last week or who knew men who had committed the depredations.

It was said this morning that a large number of striking employees were seized last night and placed in jail, and that others, besides O'Neal and Raash, had been flogged and taken to the town jail.

The wife of a union leader, who fled a few days ago with others when he heard that the "citizens were up in arms," was waited on this morning by a number of the committee members and told that she also would have to leave town.

One of the first acts of the citizens' committee last night was to break into the labor hall. All the furniture, fixtures and equipment were taken from the hall and burned in a huge bonfire on the town square.

Arrested for Bridge Burning.

Authorities say that eight men are under arrest on suspicion of burning bridges. Three are in jail here, another out on bond, and four have been before the grand jury at Searcy. A trestle about 200 feet long, near Eureka Springs, which was burned last week, is being repaired and will be completed tonight. Trains have been transferring passengers and freight at that point.

Bridges Burned Last Week.

Action of the citizens followed the wholesale burning of bridges on the M. & N. A. last week starting Tuesday night, when a bridge near Eureka Springs, Ark., 235 feet long, was destroyed. Five other bridges had either been destroyed or badly damaged by Friday night, completely burning up the line between Searcy and Eureka Springs. Eight alleged strikers are under arrest charged with arson, and a grand jury was called yesterday at Searcy to investigate the burnings.

According to J. C. Murray, vice-president and general manager of the road, the recent bridge fires were of incendiary origin. All of the bridges along the line are now being guarded by citizens, who have organized, he said.

"We no sooner would get one of the burned bridges repaired or rebuilt until another would be damaged or destroyed," Murray added. The road discontinued operations some time ago and the Government loaned a loan of \$5,000,000 to resume business.

Most of the citizens were armed with revolvers and shotguns. They began to pour into Harrison early in the morning. His committee estimated that more than 500 from other towns along the line were here. In the afternoon and last night a crowd of more than 1,000 was milling about the streets.

Brotherhood Chiefs Ejected.

Several months after the strike was called four brotherhood chiefs, who were in Harrison directing the strike, were forcibly ejected. A crowd of approximately 200 armed men galled on the men at their hotel and gave them half an hour in which to "get out of Harrison."

The brotherhood chiefs, who were said to have the ranking of vice-presidents in their respective organizations, fled in motor cars and went to Joplin, Mo., the northern terminus of the M. & N. A., from which place they directed the strike. This action was followed a short time later by suspension of the railroad. Operations were resumed Oct. 15, after the Government loan had been made.

GERMAN BOY KILLED IN CLASH AT BOCHUM

French Tell of Acts of Radical Elements While Germans Deny Provocation.

Special Cable to the Post-Dispatch and the Chicago Daily News.

(Copyright, 1923.)

BOCHUM, Germany, Jan. 16.—When the correspondent arrived here last night the city was seething with excitement following a clash between French troops and natives in which a 17-year-old boy was killed and two youths, a woman and a child were wounded. By midnight the excitement had subsided. The French claim that the radical elements among the crowd which witnessed the arrival of the troops jeered the soldiers and refused to disperse even when warning shots were fired in the air. In the French version, the crowds chanted the new war song, "On to Victory Against France," as well as the old imperial war songs, such as "Eisegleich Wollen wir Frankreich Schlagen," "Die Wacht am Rhein" and "Deutschland Über Alles."

On the other hand, the Germans claim that no provocation to the French troops was offered by the populace, though it is officially admitted that the whole town seems to have turned out to meet the French.

German Killed When French Try to Quell Political Clash.

BOCHUM, Jan. 16.—One German was killed and two Germans were seriously wounded last night when French troops fired in a crowd in order to quell a clash between Nationalists and Communists. The Nationalists were holding a demonstration before the city hall, where the French General is staying, when the Communists began a counter-demonstration and a clash between the factions resulted.

By the Associated Press. MAYENCE, Jan. 16.—The clash between French troops and German civilians at Bochum last evening was due to firing by German demonstrators upon French posts, the French replying to the first, the semi-official Havas agency states. Marks of bullets were found on the walls of the railway station, showing that the French had been fired upon, it is declared.

Boy, 15, Shot for Divorce.

Special to the Post-Dispatch. DETROIT, Jan. 16.—A 15-year-old boy has been made defendant in a divorce suit. His wife is 19. James Albert Chadwick is the youthful defendant and Mary E. Chadwick, daughter of Mrs. Fred Calkins, is the wife. She charges desertion. According to the complaint, they were married last May and lived together until August.

WITNESSES GONE TO ITALY; BRIBERY CHARGES DISMISSED

Court Takes Action in Case of Former Deputy Sheriff A. L. Stuckman.

Charges of bribery against A. L. Stuckman, former Deputy Sheriff of St. Louis County, were dismissed yesterday after the court was informed that two witnesses for the prosecution had gone to Italy. They are Philip Rebello and Louis Fontana.

An indictment returned against Stuckman in September, 1921, charged that he accepted \$500 from the two Italians in return for his promise not to reveal information that they were engaged in dealing in moonshine liquor.

Geese Also Caught in Nets Attached to Machine Wings After Fowl Are Flushed.

LAPLATA, Md., Jan. 16.—Officials of the Naval Proving Grounds at Indian Head, Md., are co-operating with Frederick S. Barbour, County Game Warden, in an endeavor to apprehend the person who has been catching ducks and geese on the Potomac River with the aid of an airplane.

It was said the pilot would locate a flock of ducks and then put them to flight. As the ducks would fly away, he would pilot his machine through the flock and, with the aid of a large pocket-shaped net stretched from the wings of the plane, would capture a number of them.

SUBSCRIBERS WILL GET \$400,000 REBATE FROM TELEPHONE FIRMS

Louisiana Public Service Commission Order Reducing Rates From Last May Accepted.

NEW ORLEANS, La., Jan. 16.—The Cumberland Telephone and Telegraph Co. last night adopted the order of the Public Service Commission issued Saturday which reduced telephone rates through the State 50 to 100 per cent of the increase granted the company last May, and directed the companies to return to subscribers more than \$400,000 collected since May 13, 1922, on the present rates in excess of the rates ordered by the commission at that time.

Man Slain and Placed on Railroad Track in Texas.

EL PASO, Tex., Jan. 16.—West Texas peace officers are searching for men in an automobile, believed to be tourists, whom they accuse of murdering an American, about 25 miles from El Paso.

The man was hit on the head with a bat, and a cap, drawn tightly over his head and his body placed on a railroad track. A train stopped before reaching the body. The body was buried without being identified.

AMERICAN CORRESPONDENT BEATEN BY CROWD IN ESSEN

Correspondent of New York Herald Attacked for Speaking in French.

ESSEN, Jan. 16.—Lincoln Eyre, correspondent of the New York Herald, was beaten badly this afternoon when he was assaulted by an excited and angry mob.

Eyre, in company with two other correspondents, was walking along a street, when he pronounced a French word. The crowd became incensed at this and attacked Eyre with canes and umbrellas. He was badly cut around the face.

German police dispersed the crowd with difficulty and apologized to Eyre.

DRINK, DRINK EVERYWHERE, NOR ANY ROOM TO SAIL

Modern Mariner's Complaint of Crowded Condition Off Jersey Coast Due to Rum Ships.

By the Associated Press. NEW YORK, Jan. 16.—Capt. Berry, attached to coast guard headquarters in this city, announced today that the commander of a vessel arriving from the West Indies had reported difficulty in crowding its way through the rum fleet standing off the Jersey coast.

Complaint was made that the fleet was a menace to navigation.

Agreement on Debt Delayed.

WASHINGTON, Jan. 16.—The American and British Debt Commissions failed today to reach an agreement for the "rounding of Great Britain's war debt to the United States. Further conversations were postponed until Thursday, the British cabling their Government for further instructions.

WOMEN TENANTS' COMPLAINTS DRIVE JANITOR TO TAKE POISON

Special to the Post-Dispatch. PHILADELPHIA, Jan. 16.—Wary of complaints of women tenants, George Graham, 68, bachelor janitor in the fashionable Einton Apartments, took poison yesterday.

"I took enough poison to kill 10 men," Graham told the police. "These women are enough to drive any man to suicide. One rushes down and raises the devil because she says her apartment is cold. Next minute any other claims hers is hot enough to roast beef. I want to end it all."

Graham seemed to sigh in disappointment when doctors told him he would recover.

INFANTRY ORDERED TO GO TO HARRISON

Special to the Post-Dispatch. LITTLE ROCK, Ark., Jan. 16.—After the House and Senate late today had adopted a resolution authorizing Gov. McRae to call out the National Guard and declare martial law at Harrison, the Governor ordered a Little Rock infantry company of about 75 men to proceed tonight on a special train to Harrison. The Legislature acted after the continued on Page 3, Column 3.

CHILDREN TO UNDERGO PASTEUR TREATMENT

Two Bitten by Small Dog Found
to Have Been Afflicted
With Rabies.

They are William Flaverstock, 12 years of age, of Boulevard, and Geraldine Susman, 3 daughter of Bernard Susman of 7306 Westmoreland drive. William was bitten on the hand at 9 a. m. by a small dog which he called the Polmar. Several minutes later Geraldine was bitten across the street from his home. Geraldine was bitten on the leg at 10:20 a. m. by a small dog answering the same description which was later killed by the police.

Marshal Ward of University City found a small fox terrier at 7200 Pershing avenue during the afternoon, which answered the description of the dog which bit the children. The dog was shot and the

head sent to the St. Louis city chemist, Dr. V. B. Stanford, Health Commissioner of University City, who received the report that the jug was affected, recommended Pasteur treatment.

AIRSHIP DRIFTS 185 MILES AFTER MISHAP

Scott Field Craft, Rudderless, Lands in Kentucky; Five Passengers Unhurt.

An accident to the rudder of the Mullan airship at Scott Field, at 10:30 a. m. yesterday forced it to drift 185 miles with the 27-mile wind, southeast to South Carrollton, Ky., before landing could be made, although the airship A-4 followed and tried to help the Mullan come down.

The rudderless flight ended, without injury to ship or passengers at 5 p. m.

The Mullan took off at 9:45 a. m. yesterday for a training flight above the field, piloted by Lieut. C. P. Clark, with two students—Lieuts. J. C. Shively and H. R. Waters—and Capt. L. T. Miller and Engineer G. Adams as the other passengers. When Lieut. Clark shot the rudder overboard to bring the ship's nose into the wind in making the landing, the wooden frame of the vertical stabilizers crumpled, leaving the ship without control as to direction.

A-4 Drifts Alongside

The ship rose clear of obstacles by means of the horizontal stabilizers which were not damaged. Clark tried to keep the ship headed into the wind by speeding up the twin propellers alternately, but had to give up the effort and drift.

The A-4, piloted by Lieut. A. O. Anderson, took off and caught the Mullan above Nashville, Ill., 65 miles from the field. Attempts were made to cast a rope from the A-4 to the Mullan, so that the A-4 could hold the Mullan into the wind for a landing, but the strong wind interfered.

The ships drifted side by side, with the gas bags almost touching, and the crews communicated by shouting across the short intervening space, which was, however, enough to effectively prevent any assistance from reaching the helpless blimp.

The crafts were drifting across the Kentucky line when the crews gave up attempts to get a rope to the Mullan, and, looking over their maps, chose Carrollton as a landing place. The A-4 flew ahead, and, flying low, asked persons on the streets in Carrollton for help in making a landing and direction to a good field. A crowd collected on the southern edge of the town.

Landing in Field

The Mullan appeared and tried to come down in the field, but was caught by a sharpening of the wind and carried a half-mile further, where Clark pulled the rip cord, letting out all the gas and making a safe landing in another field.

Capt. Miller returned to Scott Field in the A-4, which took off at 9:30 p. m., and, finding the head wind, did not get back until 3:45 a. m. today. The other members of the Mullan's crew remained to ship the Mullan back by rail.

MRS. DAVID JAYNE HILL DIES

By the Associated Press. WASHINGTON, Jan. 15.—Mrs. David Jayne Hill, 62, wife of the former Ambassador to Germany, died here early today from injuries received when struck by an automobile late Saturday. Stepping from the curb just after leaving her home, Mrs. Hill was struck by a delivery wagon. The driver is being held.

Mrs. Hill was a prominent hostess in Berlin during Dr. Hill's service as Ambassador there. Since his retirement they have lived in Washington.

New Dental Dispensary Opened

The new dispensary of the St. Louis University College of Dentistry, on Caroline street near Grand avenue, has been opened for service. It occupies the first floor of the new dental college building. There are 101 operating chairs. The school has 225 students.

Good to the last drop

The fate of the luncheon may be predestined by the hostess who will only take the pains to see that Maxwell House is served.

New method prevents colds!

---and avoids medicine

Medical science now knows that Colds, Influenza, Pneumonia, all gain access to the body thru the air passages, the nose and mouth—only. And, therefore, that the danger of sickness and unpleasant medicine may be largely avoided by the following simple method:

At the first sign of "catching cold"—stiffening, chilling and uneasiness, at once disinfect the nose, mouth and throat. Head off the breeding sickness right where it starts. And before it has time to develop. Then, of course, regulate diet and stimulation to restore your natural resistance to normal.

To cleanse and sweeten the mouth and nose is now most agreeably simple. Added knowledge of germ life, and as a result, of antiseptics, has enabled the Laboratory to develop Baptisane. An inodorous, sparkling antiseptic, much better suited to personal use. Effective as the most powerful germicide, yet as mild and soothing as a pleasant toilet requisite. Baptisane not only destroys the germ—the direct cause—but it at once clears away the congestion, and cools and tones the inflamed membranes.

You are urged to test Baptisane, its instant adoption by Physicians, Dentists, Nose and Throat Specialists warrants its use in your home. Your nearest Druggist has Baptisane or will get it for you quickly from his wholesaler. A liberal trial sample will be sent postpaid to any address, upon receipt of 10c. Address: Baptisane Pharmaceutical Co., 2601 Washington Av., St. Louis, Mo.

There is a difference in sugars

Sugars vary in quality, sweetening power and cleanliness. When you buy loose sugar in paper bags, you cannot know what you're getting. If your sugar has been exposed to dust, handling or insects, you have to eat it just as it is. You can't wash it or clean it.

For this reason, the safe way—and the economical way—to buy sugar is to order Domino Package Sugars. The sturdy Domino Packages bring you clean cane sugar of exceptional quality, always uniform and of the highest sweetening power. There cannot be any waste, spillage or exposure. Ask your grocer.

American Sugar Refining Company

"Sweeten it with Domino"

Granulated, Tablet, Powdered, Confectioners, Brown; Golden Syrup; Cinnamon and Sugar; Sugar-Honey; Molasses.

Domino Package Sugars

Important—

Every woman will appreciate our Sugar Etiquette Chart and the helpful book of Domino Syrup Recipes. We will gladly send you both of these, together with the interesting "Story of Sugar" and a book of gussied labels for your preserve jars. They are free upon request. Address: American Sugar Refining Company, 117 Wall St., New York, N. Y.

YOUTH WHO SHOT ANOTHER WEDS GIRL WHO FIGURED IN SLAYING

Melvin Hendrix Marries Marie Poite
—Parents' Opposition to Union Withdrawn.

The marriage of Melvin Hendrix, 19, and Marie Poite, 18, to have taken place a week after Christmas, but postponed because Hendrix was held for the fatal shooting of Vincent Richardson, 17, who, Hendrix said, used improper language in a theater in the presence of Miss Poite, was performed yesterday by a Justice of the Peace.

The shooting occurred the night of Dec. 28 in front of a moving picture house at Jefferson and Chouteau avenues. When Richardson stopped them as they came out of the theater, Hendrix told his fiancée to wait on and she did not witness the shooting. Hendrix was held on \$10,000 bond following a coroner's verdict of homicide.

Mrs. Patrick Poite of 2835 Hickory street, mother of the bride, said today that she and her husband and Mr. and Mrs. Andrew Hendrix of 2827A Lafayette avenue, Hendrix's parents, had opposed the marriage on account of the youth of their children, but "saw it wasn't any use and gave in."

RADIO TALK ABOUT 'TAGGERS' MAKES A HIT

Continued From Preceding Page.

or tagger?" Dr. Hanson, in discussing the prehistoric tigers and lions had harked back to his boyhood and pronounced the word as it spelled "tagger," thereby making a tremendous hit with his juvenile auditors and at the same time badly puzzling his adult hearers.

In the course of his talk he described a bed of asphalt in California which had caught animals and birds and reptiles in untold numbers as flypaper catches the fly and preserved them so perfectly that their skeletons are found practically intact. "This was hard on the animals," he said, "but has been of immeasurable value to science. One of the interesting facts discovered in this particular fossil bed is that the peacock, formerly believed to be a native of Asia, was a North American bird. Very perfect fossil remains of peacocks are among the many valuable finds in that pit of asphalt." Dr. Hanson's third talk will be given next Monday evening.

Musically, last night's program was remarkable. Miss Johanna Loeb, contralto, gave the principal portion of it, and two notable piano numbers were presented in duet form by Miss Deborah Carnovsky and Harold J. Bauer. The latter were the "1812" overture of Tchaikowsky, and the Overture to "Tannhauser," by Wagner, and both were given a brilliant rendition. In the singer of the evening music lovers had a real sensation. Miss Loeb's voice is a true contralto—velvety richness and beautiful tone quality. Her program was made up entirely of simple ballads and was presented with real artistry. She was assisted by Mrs. Laura E. Barnum, who showed herself to be an accomplished accompanist.

Tonight Station K S D will broadcast a special artists recital given by Margaret Shirley Smith (Mrs. Carroll Smith), soprano; Miss Agnes

Gray, violinist; and Vernon Henchle, pianist.

AUDITING COMMITTEE REPORT ALL BOUQUETS

Accomplishments of All State Departments Praised in Return to the Senate.

By a Staff Correspondent of the Post-Dispatch.

JEFFERSON CITY, Jan. 16.—The Legislative Auditing Committee reported to the State Senate yesterday its findings, consisting largely of bouquets thrown at the accomplishments of departments examined by it. Some of the body of the report was prepared by employees of the departments checked up, the committee admitted. About the only thing of importance in the report was a recommendation that the Legislature enact a law providing for a bipartisan auditing commission, with power to hire an accountant, who could audit the books of the State Auditor and State Treasurer.

Senator Bennett, of Buffalo, is chairman of the committee, whose other members are Representatives O'Donnell of Kansas City and McGregor of Brookfield. Although the committee admitted that it had not gone over the books of the State penitentiary, its report declared that the committee "believes from its investigation of affairs that the Prison Board is deserving of commendation for the business management demonstrated in its conduct of affairs of the various penal institutions." The committee further reported that it "feels that the State Grain Department is capably and carefully managed," and that the "State Board of Health has made marked progress in the elimination of preventable diseases and in the matter of bettering health protection along all lines."

Other departments also fared very well. The report did state that the Springfield Court of Appeals was spending too much money for rent of a suite of rooms in an office building when it could have other quarters rent free in the Greene County Courthouse, and that the State was wasting much money by allowing all of the departments to do their own buying, when a central purchasing agent could get lower prices on larger quantities. And the report did state, without using any names or without endeavoring to fix any responsibility, an incident printed in detail in the Post-Dispatch, in which an effort was made to collect \$7822 from the State on a bill which had been paid many months previously. The Senate ordered 500 copies of this report printed.

SAYS MAN ADMITS MURDERS

County Attorney Tells of Alleged Confession and Use of Iron Bar.

PARSONS, Kan., Jan. 16.—Emery Knight, 23, of Parsons, last night confessed that he clubbed Paul Thomas and Joseph F. Shannon to death on a country road near Parsons the night of Jan. 3, according to a statement made here by Payne H. Ratner, County Attorney. Knight retracted his statement made last Saturday, in which he accused Charles Klock and C. W. Dean of Parsons of the crime, Ratner said.

Two other men, named by Knight, held Thomas while Knight struck him over the head with an iron bar, according to Knight's signed confession, Ratner said. Shannon was also killed with an iron bar, the confession continued.

PROMPT TELEPHONE SERVICE

COW AT CITY FARM
SETS MILK RECORD

Herd of Scrub Cows Bought for Belle-
fontaine Farms Has Been Im-
proved in Standard.

A herd of scrub cows, obtained by
the city a few years ago to furnish
milk at Bellefontaine Farms, has
been improved until one of its mem-
bers has won the State milk-produc-
ing championship, breaking the re-
cord, and others are strong contend-
ers for the milk and fat records.

The new holder of the milk record
is Duchess Chemacqua Hengerveld,
a pure-bred Holstein. Duchess Mac,
as she may without disrespect be
called, has just completed a year's
official test, in which her recorded
milk production was 16,113 pounds.
The best previous record in this
State was that of Carlotta Campus
Girl at the University of Missouri,
15,721.1 pounds in a year.

Duchess Mac's fat-producing re-
cord was 55.62 pounds, and this also
broke a record, but a university cow,
Campus Lady Ormsby Alma, has
since excelled this figure, with 56.16
pounds.

Carl H. Soest, superintendent of
Bellefontaine Farms, is in charge of
the herd, and the cows are milked by
the boys on the farm. The first herd
was made up of inferior cows, ob-
tained from herders. A pure-bred
sire, and a subsequent selective pro-
cess, brought up the standard, and a
few select pure-bred cows were
added to the herd, and official test-
ing was started. Several other cows
are now making up records which
the superintendent believes will
compare favorably with those of the
best cows in the university herd.

The development of the herd has
tended to interest the boys at the
farm in dairying, and some of them
plan to follow that business after
they leave the city institution.

FIVE MEN EXECUTED BY IRISH
FREE STATE GOVERNMENT

Disorders Continue in Dublin, Cath-
olic Priest and a Woman Being
Among 7 Persons Wounded
By the Associated Press.

DUBLIN, Jan. 16.—Four men were
executed at Roscomra and one at Car-
low by the Free State Government
yesterday. It is officially announced.
The charge against them was pos-
session of arms. Confusion and ter-
ror prevailed in the heart of the city
for a time last night in consequence
of much bombing and shooting. Sev-
en persons were reported wounded,
including four soldiers. Catholic
priest and a woman, who is not ex-
pected to recover.

WOMAN TEACHER SHOT ON ROAD

Assistant, Recently Released From
Hospital for Insane, Kills Himself.
By the Associated Press.

MARIETTA, O., Jan. 16.—After
shooting and perhaps fatally wound-
ing Miss Alice Dunbar, 26 years old,
school teacher, of Cutler, Washing-
ton County, at a lonely point on a
road near her home late yesterday,
Dow Nice, 30, of Big Run, Athens
County, went to his home where he
shot and killed himself.

Passerby found the girl lying in
the road and took her to her home.
Nice, according to advices from
Athens, recently was released from
the State hospital for the insane,
where he was said to have been
committed after a similar attack on
another young girl.

IF RHEUMATIC
BEGIN ON SALTS

Says We Must Keep Feet
Dry, Avoid Exposure,
Eat No Sweets.

Shy off the damp ground; avoid ex-
posure, keep feet dry, eat no sweets
of any kind for a while, drink lots of
water and above all take a spoonful
of Jad Salts occasionally to help keep
down uric and toxic acids.

Rheumatism is caused by poison
toxins, called acids, which are gener-
ated in the bowels and absorbed into
the blood. It is the function of the
kidneys to filter this acid from the
blood and cast it out. The pores
of the skin are also a means of free-
ing the blood of this impurity. In
damp and chilly cold weather the skin
pores are closed, thus forcing the kid-
neys to do double work; they become
weak and sluggish and fail to elimi-
nate this poison, which keeps accumu-
lating and circulating through the
system, eventually settling in the joints
and muscles, causing stiffness, sore-
ness and pain, called rheumatism.

At the first twinge of rheumatism
get from any pharmacy about four
ounces of Jad Salts; put a tablespoon-
ful in a glass of water and drink be-
fore breakfast each morning for a
week. This is helpful to neutralize
acidity, remove body waste also to
stimulate the kidneys, thus helping
to rid the blood of these rheumatic
poisons.

Jad Salts is inexpensive, and is
made from the acid of grapes and
lemon juice, combined with lithia,
and is used with excellent results by
thousands of folks who are subject to
rheumatism.

ADVERTISING
YOU CAN'T BRUSH OR
WASH OUT DANDRUFF

The only sure way to get rid of
dandruff is to dissolve it, then you
destroy it entirely. To do this, get
about four ounces of ordinary liquid
arvon; apply it at night when retir-
ing; use enough to moisten the scalp
and rub it in gently with the finger
tips.

Do this tonight, and by morning,
most if not all, of your dandruff will
be gone and three or four more ap-
plications will completely dissolve and
entirely destroy every single sign and
trace of it, no matter how much dan-
druff you may have.

You will find, too, that all itching
and digging of the scalp will stop at
once, and your hair will be fluffy,
lustrous, glossy, silky and soft, and
look and feel a hundred times better.
You can get Liquid Arvon at any
drug store and it never fails to do
the work.

CONGRESS KILLS OLD GARDEN-SEED GRAFT

Heflin Sings Sweet Swan Song Into Adamant, Ears of Lodge in Vain Offer to Save It.

Post-Dispatch Bureau, 29 Wyatt Building.

WASHINGTON, Jan. 15.—What Federal Judge Kenyon of Iowa, when in the Senate, used to describe as the "hoary free-seed graft" has at last been abolished. The final stroke was delivered in the Senate Saturday when an item proposing \$300,000 for the distribution of seed by Senators and Congressmen to their constituents was thrown out of the agricultural bill on a point of order.

The House, reversing a custom of many years' standing, previously had turned down the appropriation. The Department of Agriculture has been opposed to free seeds for several years. And this year declined to include the item in its annual estimate of department needs.

An effort by Senator Heflin of Alabama and others to save the free-seed perk, Heflin, reached an impassioned height in his appeal to Senator Lodge, majority leader, who made the point of order against the item, not to harden his heart against the farmer.

Lodge, however, remained adamant, and there was so much support for his position on both sides of the chamber, that the free-seed champions had to admit defeat.

\$150,000,000 INVOLVED IN COPPER MINING TRANSACTION

By the Associated Press.

NEW YORK, Jan. 15.—The Anaconda Copper Mining Co. is negotiating for control of the Chile Copper Co. in a deal involving \$150,000,000, John D. Ryan, chairman of the former corporation, announced.

It was announced that Anaconda stockholders had authorized issuance of \$200,000,000 in first consolidated sinking fund gold bonds and \$50,000,000 in debenture bonds to handle the purchase. Half of the \$200,000,000 issue will be offered for sale Wednesday by a syndicate headed by the National City Co. and the Guaranty Co. in what was said to be the largest single piece of industrial financing ever attempted.

The reported price was \$25 a share.

but neither side of the deal would confirm this. It was believed the Guggenheims would accept part of the \$50,000,000 debentures issue in part payment for their Chile Copper holdings.

The two companies produce annually more than 20 per cent of the copper mined in North and South America.

BEWARE OF DRUGS

Medical Authorities Advise Caution in Use of Preparations Liable to Contain Powerful Drugs.

"Never drug your system to relieve or prevent colds, grippe or 'flu.' Drugs are liable to affect the nervous system or weaken the heart. Hot medicinal tea is now recommended by many physicians, because it is best for the human system, acts quickly on the bowels and intestines by eliminating the excess poisonous wastes that usually tend to lower your physical resistance. Just pure, refreshing, healthful herbs from nature; that is why millions are now using Bulgarian Herb Tea to relieve and break up bad colds, and also keep the poisons flushed from the system. Many physicians now prescribe Bulgarian Herb Tea, and your druggist can honestly recommend it."

TUBERCULAR TESTS OF COWS ATTACKED

County Representative
Proposes Repeal of Law; Says
It Works Hardship.

By CURTIS A. BETTS,
Staff Correspondent of the Post-
Dispatch.

JEFFERSON CITY, Jan. 15.—An
attack on the health-protecting
law of the Missouri legislature
began in the Legislature
today when the introduction of a bill
by Representative Morrison of Sulli-
van County, seeking to repeal the
tuberculin test of cows, was
made.

The bill, which would repeal the
law of five cows or more from
which milk is offered for sale,
was introduced by Representative
Morrison, who has been con-
sidered a leader in the State De-
partment of Agriculture would vi-
ciously oppose repeal of the law or
any weakening of its provisions and
on the other hand it would ad-
vocate the passage of a bill by Rep-
resentative Job of No. 10 County,
which seeks to extend the test to
every cow and beef animal in the
State.

Morrison said he had made his
campaign in Sullivan County on a
platform of repeal of the tuberculin
law and that on that issue he
had defeated his opponent, Dr. F.
H. Wilson, a veterinarian, who, as a
member of the Legislature in 1921,
was the author of the law. He said
he was opposed to it because it was
expensive and costly to the
farmers.

There has been no state veteri-
narian in my county to make these
tests, Morrison said, "except in
some townships. Herds in those
townships have been tested and an-
imals having tuberculosis have been
killed out, but other herds in other
townships have not been tested and
possibly have tubercular cattle. The
milk from both herds frequently
goes into the same milk can and is
then again the State only makes
the test. Future tests must be
made at the expense of the owner
of the cattle. This works a hard-
ship."

"We are now well started toward
tuberculosis of cattle infected with
tuberculosis," he said, "and
paying the work for even two
men would mean that the money
we have spent and the work we have
done would be useless. In that
length of time the disease would
have again gained a foothold where
we have stamped it out."

"The health of the children where
milk is the real question at
hand. Investigations by competent
authorities have shown that there is
no question that the tubercu-
lar germ is transmitted to children
milk from infected animals. In
large number of cases of tubercu-
lar children between the ages of
1 and 14 in New York City it was
found that approximately 25 per
cent had the tubercu-
lar germ."

Here's Relief for Neuritis

Never mind where, when or how those
awful, stabbing pains of neuritis get
their start—you want relief from the
torment right now!

Stop at any first-class drug store and
get a supply of Tyamol. Apply a small
quantity of this soothing preparation
over the spot that hurts, and in a short
time you should be free from pain.

Tyamol is taken up through the pores
of the skin, going direct to the throbbing
aching peripheral nerves, which
quickly respond to its healing influence.

There is no "dope" in Tyamol—no
dangerous drugs of any kind. Guar-
anteed to be absolutely harmless. People
everywhere say that nothing ever gave
them such wonderful relief. Price \$1 at
Judge & Doherty Drug Co. and all other
leading druggists. Tyamol Company,
1177 Chestnut, 400 Sutter St., San
Francisco.

BENEFITS TO BE GAINED BY BOND ISSUE DISCUSSED

Value of Street Widening Program to North St. Louis Stressed in Address by W. Frank Carter.

MASS MEETING AT YEATMAN HIGH SCHOOL

That Portion of City Now Without Direct Thoroughfare to Business District, Carter Points Out.

Benefits to be gained by North St. Louis, as well as other sections of the city, from the municipal bond issue for public improvements, particularly the street widening program, were stressed by W. Frank Carter, chairman of the General Council on Civic Needs, at a mass meeting held last night at Yeatman High School, Natural Bridge and Garrison avenues.

The northern section of the city, he said, now has no main thoroughfare direct to the business district, all heavy traffic having to move on detoured streets. The widening of the Twelfth street, from Washington avenue to Palm street, one of the 36 street widening projects under Proposition 1 of the bond issue, would provide a direct thoroughfare between North St. Louis and the business district, he pointed out.

Park Needs Also Discussed.

He also urged the value to the city of additional parks and playgrounds, and improvement of existing ones, as proposed in the bond program. He pointed to the benefits derived by North St. Louis from Fairgrounds Park and the need of park facilities in sections now without them.

A similar bond issue mass meeting was held tonight at Central High School, 1030 North Grand boulevard.

The 21 bond items to be voted on in the special election Feb. 9 were introduced unanimously by the Society of 48 and 5, composed of veterans of the World War, meeting yesterday at the Chamber of Commerce.

Notices of several other bond issue meetings have been received at the campaign headquarters in the Arcade Building.

Approved by Business Men.

The North St. Louis Business Men's Association approved the entire program and voted \$100 toward campaign expenses.

A resolution approving the bonds and pledging members to work for passage of the various items has been adopted by the St. Louis Section, Council of Jewish Women. Similar action has been taken by the St. Louis Tercentenary Shakespeare Society.

All items were endorsed by the Wednesday Club and members urged to work for passage of the program.

Twelve Bond Issue Meetings on Campaign Schedule Today.

Twelve bond issue meetings are on the municipal bond issue campaign schedule today, five of them arranged for tonight.

Organizations meeting this afternoon include the Retail Druggists' Association, Motor Accessories Trade Association, Life Underwriters' Association, Production Executives' Club, University Musical Research Club, and the Lindenwood College Club. A community meeting was held at Chouteau School.

Bond issue sessions tonight include the following:

6:30 p. m., St. Louis Material Dealers' Association, 1030 Olive street.

7:45 p. m., mass meeting Central High School.

8 p. m., South St. Louis Business Men's League, Barr Branch Library, Jefferson and Lafayette avenues.

8 p. m., Carpenters' District Council, 3024 Olive street.

8:30 p. m., Parent-Teachers' Association, Drexel School, Maple and Goodfellow avenues.

Meetings tomorrow are:

12:15 p. m., Meyer Bros. Luncheon Club, Chamber of Commerce.

8:40 p. m., Pleasant Hour Club, meets with Mrs. B. N. Cornwall, 5173 Maple avenue.

8 p. m., speakers' dinner, Chamber of Commerce.

8 p. m., Southwest Merchants' Association, 3000 South Jefferson avenue.

8 p. m., Quentin Roosevelt Post, American Legion, New Moose Hall, 1836 Olive street.

8 p. m., Twenty-seventh Ward Republican League Club.

8 p. m., Joseph Darst Realty Co., 173 Walnut street.

Campaign for Municipal Auditorium Bond Item Discussed.

An educational campaign to show citizens the advantage to the city of having a Municipal Auditorium, such as proposed in Proposition 13 of the municipal bond issue, was discussed yesterday by the Municipal Auditorium and Community Center Building Committee, composed of representatives of civic and commercial organizations, meeting at the Chamber of Commerce.

Several speakers warned the bond supporters against overconfidence

What Voters Need To Know About The Bond Issue--No. 7

SENATOR SIMMONS CRITICISES CAPPER FARM CREDITS BILL

Several Features of Proposed Legislation Declared Impracticable.

By the Associated Press.

WASHINGTON, Jan. 16.—Democratic criticism of the Capper bill developed in the Senate today when consideration of farm credits legislation was resumed with a hope for a vote on the bill before adjournment.

Senator Simmons, Democrat, of North Carolina, said the Capper bill was of "very little consequence" to the rank and file of farmers. He thought it might be of some help to large stock raisers. He declared several features impracticable and said he hoped the bill would not be an excuse for preventing passage of more helpful legislation.

The Capper bill's provisions for co-operative credit associations with \$250,000 capital were criticised especially by Simmons, who said it would be difficult for any ordinary group of farmers to form such an association.

\$15,000,000 FOR ROADS EACH YEAR URGED BY GARY

Chairman of Highway Commission Favors Completion of \$60,000,000 Program by 1927.

WILL PRESENT HIS PLAN TO LEGISLATURE

Also Favors Gasoline Tax and Auto License Fee Increase to Assure Maintenance Fund.

By the Jefferson City Correspondent of the Post-Dispatch.

JEFFERSON CITY, Jan. 16.—The Legislature will be asked by Chairman Theodore Gary of the State Highway Commission to authorize the issuance of State road bonds of the \$60,000,000 issue at the rate of \$15,000,000 a year, instead of \$5,000,000 a year, as now provided. Gary argues that this will enable more economical operation of the department and will mean approximate completion of the \$60,000,000 program by 1927, instead of delaying that event until 1932 as contemplated by the present arrangement.

Gary's suggestions in outline form as they will be presented to the House and Senate Road Committees became available to the Post-Dispatch today. The highway chairman points out that sale of \$15,000,000 of bonds has been authorized up to the present time and that a large organization has been set in motion to the end that probably 2000 miles of highway will be undertaken by next May. This organization is large enough to repeat a similar accomplishment year by year, Gary indicates, which would hold down the cost of engineering, supervision and construction and expedite the letting of larger projects, thus making it possible for contractors with up-to-the-minute machinery to take projects which would be unattractive to smaller ones.

For Auto License Fee Increase.

Gary also wants the Legislature to increase automobile license fees to the end that about \$900,000 additional a year be raised for a road maintenance fund and suggests the imposition of a small State tax on gasoline as a further feeder for the maintenance fund. Adequate maintenance is essential to the success of the road program, Gary believes, as it has become well known that motor vehicles, especially trucks, tear modern roads to pieces very rapidly and maintenance from day to day is necessary to save the surface from early deterioration.

A fight upon this proposal, however, is expected from motor vehicle men. In fact, Roy Britton of St. Louis, counsel for the automobile club of Missouri, said here today that he expected the organization to oppose any movement at this time to increase the automobile fees because of the fact that there have been frequent advances by previous legislatures of recent years.

"I was assured by Mr. Gary in October that the present license fees would be adequate to maintain the roads for the present," Britton said, "having demanded an expression on the subject before our organization made a fight for the adoption of constitutional amendment No. 3, which carried at the November election, largely due to our efforts, and we shall certainly oppose a further increase in license fees at this time."

Nature of Amendment.

Amendment No. 3 provided available for expenditure in road maintenance any surplus money from motor vehicle license fees left in the road fund after its provision had been made for the interest and principal on the \$50,000,000 bonds.

Gary also wants the Legislature to "clarify the law as to whether the chief engineer of the department is an employee or an officer," as thereby hangs the salary of the engineer, E. H. Piepmeyer, who at the time of his appointment was and for eight years had been a member of the State Highway Department of Illinois. The Constitution provides that State officers shall have been residents of this State at least a year prior to election or appointment, and under an opinion by the Attorney-General in a previous similar case it was determined that Piepmeyer was outside the pale under that section.

Has Drawn No Salary.

He never has presented a demand for salary to the State Auditor, but has borrowed money from a bank on his personal note in the belief that the Legislature would take measures to see that his salary of \$7500 a year would be paid. Whether it will do so is a question, as this Legislature is dominated by Democrats, and a Democrat, Alexander Graham of Kansas City, was summarily ousted from the position of chief engineer by Gary to make a place for Piepmeyer, whose appointment was designed by Chairman E. B. Clements of the Republican State Committee and other Republican politicians. No criticism has been made, however, of the conduct of the department.

BOYDEN'S VIEWS FIRST SUBMITTED TO HUGHES

Statements on Reparations Made by Unofficial Observer Were Sent to Washington.

By the Associated Press.

PARIS, Jan. 16.—An authoritative statement from American quarters today makes it clear that the American reparations plan "before the Reparations Commission was drawn up" in an effort to "fit" with the American Government's views on the reparations problem.

The statement says the plan as drawn here was mailed to Secretary of State Hughes for his consideration about Nov. 20 last, and that the Secretary was believed to have had the plan before the end of November.

Since Secretary Hughes made no changes or suggestions in regard to the plan, it has been assumed by the representatives of the State Department here that it met with his approval.

Certain minor changes were made in the plan 10 days ago and Secretary Hughes' approval has been stated in a statement declared "This message went by cable, it is stated, and said that the suggestions made by Roland W. Boyden, American unofficial observer with the commission, had been placed on the commission's agenda for formal discussion next Friday or early the following week.

Plan Apparently Approved.

If the Secretary of State approved the plan and had the plan coincided with the State Department's ideas on reparations, it was further assumed, adds the statement, the Secretary would have ordered the withdrawal of the plan before it actually came before the commission for discussion.

Considerable surprise was expressed by knowledge of the plan was disclosed in Washington, and it was felt there must have been some misunderstanding. One suggestion made in American quarters today was that the American Government might not take into account the fact that the European Governments and the public generally do not make a distinction between plans submitted or ideas expressed by America's unofficial observer and the plans and ideas of the American Government itself.

Boyden and M. Barthou had a private discussion lasting half an hour, at the end of which the French delegate, it is stated, requested the American observer to draw up in writing the ideas he had expressed at a special meeting following the visit.

Washington Insists Boyden Plan Is Purely Unofficial.

By the Associated Press.

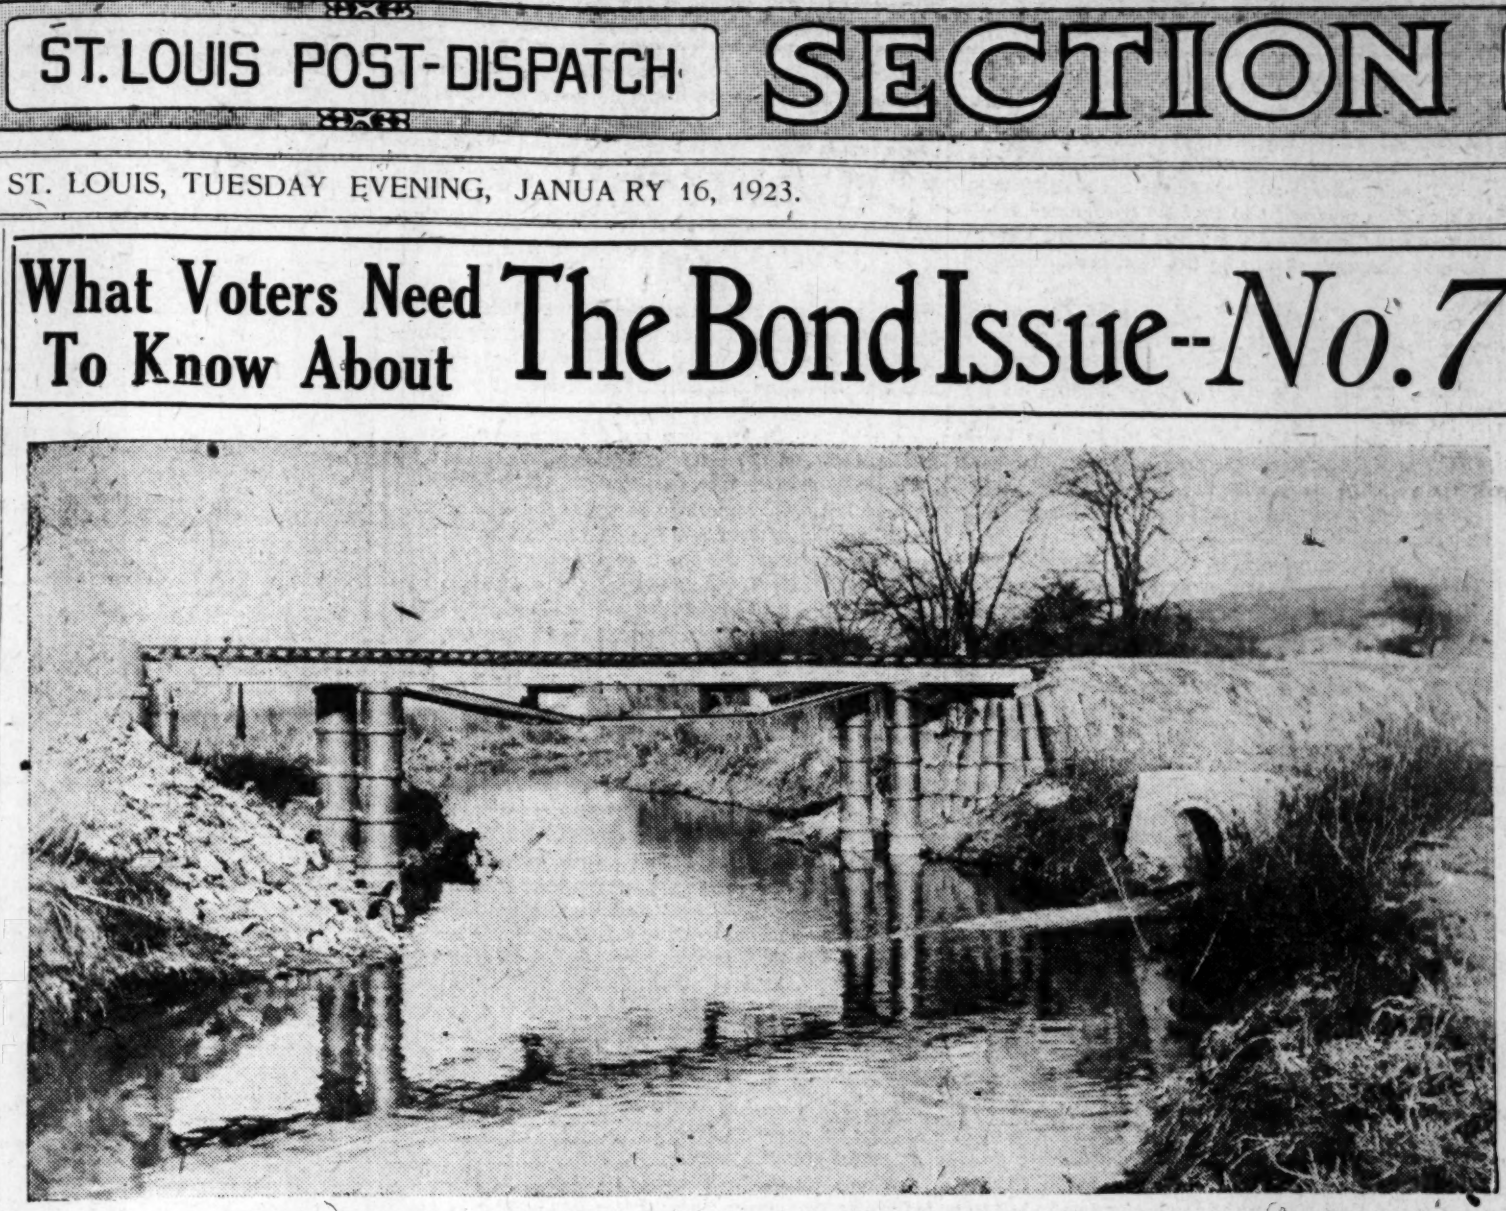

WASHINGTON, Jan. 16.—Administration officials continued to insist today that the American Government considered itself entirely dissociated from the reparations plan which has been placed before the Reparations Commission by Roland W. Boyden, the American observer who is representing the United States unofficially on the commission.

In the face of dispatches giving details of how the plan was laid before Secretary Hughes weeks ago, it was declared at the State Department that the department knew nothing of the plan and desired not to be in any way associated with it.

At the White House it was conceded, however, that Mr. Boyden might have presented to the commission on his own account "some sort of plan or suggestion," but a statement issued by the State Department yesterday said:

and urged that nothing be left undone to get out a heavy vote, favorable to the bonds, in the special election Feb. 9.

Lack of facilities for holding large conventions and industrial shows, it was said, has resulted in St. Louis being ignored as a meeting place by the larger national organizations, and resulted in the loss of many thousands of dollars in trade to the city.

A View of the River des Peres, Showing One of the 61 Sewers Emptying Into the Stream.

Each of 21 Articles on Bond Issue Projects Will Treat a Separate Project

THE Post-Dispatch is printing a series of comprehensive articles on the 21 propositions involved in the Municipal Bond Issue election which will be held Feb. 9. Each article in the series will treat separately one of the items proposed and one article will appear each day, treating the projects in the order in which they will appear on the ballot.

Because of legal requirements in drafting the ordinance calling the special election, the detail of the various projects is not set forth specifically in the ordinance.

The committee of the Board of Aldermen, in reporting the bill, included in its record a report of the specific improvements with the recommendation that it be adopted as official and thereby constitute a binding obligation on this and future administrations in administering the funds from bonds authorized.

until they succeeded in ridding their city of the most foully polluted river in the world by sanitary engineering. We have here the former polluted Chicago River, only on a smaller scale, running through a densely populated district, through one of the most beautiful parks in the United States, emitting its foul and contaminating odors from one end of the city to the other.

"Citizens daily are being cited to appear before the Health Division for having nuisances on their property, are sent to court, fined, and compelled to abate such nuisance, and St. Louis, on its property, is maintaining the largest nuisance in the city."

The objection has been raised by opponents of public improvements that inasmuch as the stream flows into the city from St. Louis County and much sewage from the county is brought into the city by the stream, the county should bear a portion of the expense of the improvement. Though there appears merit in this objection, the fact remains that notwithstanding efforts to interest the county in the project, it has failed to co-operate with the city. It is for the protection of the city it is proposed the stream be covered and straightened.

Drains 67,000-Acre Watershed

It is a stream with a length of approximately 16 miles in the city and of a considerable length in St. Louis County before it enters the city, draining a watershed of 67,000 acres, of which 15,000 are in the city and 52,000 in St. Louis County.

The sewage of a large part of the 52,000 acres in the county flows into it, and a large part of the sewage from the 15,000 acres in the city.

During flood periods it is a raging river, overflowing property and causing many thousands of dollars of damage and sometimes loss of life. During dry spells there is little running water in it, and it becomes merely a succession of stagnant pools, breeding places for mosquitoes. Entering the city in Hodiament, this foul stream winds in and out through the western part of the city near the city limits and through Forest Park, through Maplewood and the south-western and southern section of the city, through districts thickly populated and closely built up, and finally reaches the Mississippi River.

The River des Peres can hardly be called a river except in periods of heavy rain. At other times it is only a foul-smelling creek which, according to an official report by Health Commissioner Starkloff, is a continuing menace to the health not only to those living near it but to the entire city because of the danger of spread of contagion if typhoid or other disease due to unhealthy surroundings should get started.

Starkloff several months ago, declaring the stream a nuisance, demanded that it be abated by the city.

Two Methods of Financing Project

There are only two methods by which the improvement can be financed. One is by the passage of the bond issue, and, that failing, by creating a special sewer district of the territory in the city drained by the stream. Involved in deciding which method is advisable is the question of which is the more economical. For this information the public's only source is the Department of Streets and Sewers, whose engineers have devoted much time for several years not only working out the proper engineering details of the improvement, but in considering the financial phases of it as well.

They have reached the conclusion that the bond issue method is the cheaper by between \$3,000,000 and \$5,000,000, and that because of the fact that an assessment of the benefits there would be a large assessment against the city as a whole, the cost to the taxpayer living outside the district would be no greater, and possibly would be less, if the work was done through a bond issue.

In comparison with other sewer projects they have reported that, considering the entire River des Peres drainage project, the proportion of the cost which would be paid by the city as a whole under the bond issue would be less than the cost paid by the city as a whole for the Mill

Report of Health Commissioner

In an official communication to the Board of Public Service, he said:

"The sanitary condition of the River des Peres from its entrance into the city to its terminus, where it flows into the Mississippi River south of Lorenz street, has been distressingly vile for many years, and a constant source of danger to the health and lives of the citizens of St. Louis—particularly those who live in close proximity to this stream. This condition has been getting worse from day to day and something drastic must be done to remedy this increasing danger to the public health."

"The River des Peres is as menacing to St. Louis as the Chicago River was to Chicago

Knocked Down and Ousted by Bond Issue Opponent

Man Who Tries to Speak for Municipal Improvements Treated Roughly at Meeting of Antis.

AUDIENCE MADE UP OF 53 PERSONS

Principal Address by A. B. Lambert, Who Argued Work Should Be Done Out of Current Revenues.

Strict adherence to the spirit of the announced program of opposition to the municipal bond issue marked a mass meeting held last night at the Barr Branch Library, Jefferson and Lafayette avenues.

The only man who attempted to talk for the bond issue was knocked down and ousted, amid hooting by the small crowd. The chairman clarified the purpose of the meeting by announcing that he was quite able to handle any other individual who tried to make such speeches, and suggested those not in harmony with the opposition program seek other meetings.

Returns With Policeman.

Only one other lull occurred, when the ousted bond partisan, Fred Sebastian, a sidewalk inspector in the Street Department, living at 3820A Fairview avenue, returned with a policeman and caused the arrest of his alleged assailant, Carlisle E. Schnell, 1609 Market street. The latter made counter charges of peace disturbance and both men were taken to the Third District Police Station, where Sebastian furnished bond. Schnell was held pending an effort to get bond.

Both men were discharged when their cases were called today in police court.

Other speakers, without interruption, told the 53 persons present that they were opposed to the bonds because of taxation increases, fear that the money would not be spent as proposed, or suggested abandoning the bond method of making public improvements through financing of substitute plans they offered.

Sebastian was set upon when he arose, at the conclusion of an anti-bond speech by Albert Boyd Lambert, and stated, "I think it is a shame for anyone to oppose the bond issue." He was denied the floor, while cries of "Put him out" filled the hall. He persisted in his effort to seek support for the public improvements and was told by the chairman, William Seessinghaus, 1444 St. Louis avenue, to get out. He started, with a paring knife, "I'll get out, I'm in favor of the bonds and don't want to associate with you."

Denies He Came as Hecker.

He was knocked down as he was leaving his chair, and then hustled to the door of the hall. He later denied that he came to the meeting as a heckler.

Lambert stated he was for public improvements, but opposed to making them by the bond issue. He said the ground that the interest cost was too heavy and that the life of the improvements, in some instances, would be less than the period required to retire the bonds. He urged that the improvements be made out of current municipal revenues.

Seessinghaus, listed as president of the Citizens and Business League, suggested that the bond money might be used by city officials to place 5000 to 25,000 more employees in the city departments, and "permanently strengthen the machine."

Table on Costs Presented.

Horace Cupples offered a financial table, purporting to show that taxpayers would pay \$3000 for each \$1000 of bonds. He said he had a plan by which two main traffic arteries, each a block wide, could be built in the city, from a large revolving fund, and the increased value of the abutting property pay the cost, but did not explain how the revolving fund would be created. He would eliminate traffic congestion and accidents by having these arteries run under other streets. He criticized the present plan of city government, and urged a change, but said he did not know any of the city officials, nor anything about them. Other speakers offered other plans.

Some difficulty was met with officers, when a permanent organization was formed. Seessinghaus was elected chairman, but several nominees declined the job as view chairman, pleading ill health or business activities. Finally Seessinghaus called for volunteers, and C. J. Zellinger said he would take the job if no one else wanted it. A. W. Grossheller was chosen secretary.

Lambert Made Treasurer.

Another hitch caused on naming a treasurer. Lambert, who had been suggested by Seessinghaus as a "man of means" and excellent business standing, was elected treasurer, subject to his acceptance. The name of Non-Bond Improvement Association was selected.

Cost of Work Important Element

With only 15,000 acres of the watershed within the city, and 52,000 acres in the county, it will be seen that the special district in the city would pay less than one-fourth the cost, while more than three-fourths would be assessed against the city as a whole. Another element, and an important one, in the cost is that work done under special tax bills, as special taxing district work necessarily is done, is vastly more expensive than work done under a bond issue. The reason for this is that it is more costly to do business on a long term credit business than it is on a cash business.

Contractors who must wait several years to be paid for their work, or who must discount the special tax bills they receive for the work, are compelled to bid at a very much higher figure than if they knew they will receive cash when the work is done.

The character of the improvement demand is this:

From Hodiament, where the stream enters the city, through the West End district, to Union avenue, where the stream enters Forest Park, it is to be made a covered, underground, concrete sewer 23 feet wide and 30 feet high, the channel being straightened in places and the sharp turns made into easy curves that there may be no obstruction to an easy passage of the water.

From Union avenue through Forest Park to Macklind avenue, the stream is to be converted into a double-section reinforced concrete cover, underground sewer, each section to be from 27 to 30 feet wide and 22 feet high.

Open Channel in Some Places.

From Macklind avenue to the forks of the stream near Maplewood is to be an open channel, with concrete sides and base, 80 feet wide and 16 feet deep. From the forks to the Mississippi River the channel is to be of reinforced concrete from 160 to 180 feet and 18 feet deep.

This open channel will carry storm water, and a closed sewer, under the channel bed, will carry the sewage.

In addition to the correction of the unhealthy conditions, other advantages of the improvement pointed out are that it will reclaim thousands of acres of land for industrial purposes, and now waste and barren and unfit for use because of the danger of overflow. It also would give opportunity for a boulevard of wonderful scenic beauty, and would provide city-owned space for a belt line railroad to serve the manufacturing and business district which would be created.

These advantages have been included in the estimate of the cost of the entire project.

That the scheme is proper from an engineering standpoint is attested by the fact that a special committee of the Associated Engineering Societies of St. Louis, consisting of several of the most widely known engineers of the country, have examined the details, have pronounced them sound and efficient, and have found that the estimates are within proper limits.

QUESTIONS AT COUE MEETING RESULT IN NEAR DEBATE

Auto in Philadelphia Shows Interest in Theatricals. PHILADELPHIA, Jan. 26.—Philadelphia mail from the city yesterday afternoon through several hundred artists and intellectually inclined citizens at the Academy of Music. Many unusual and interesting questions asked by the audience at the conclusion of the lecture developed almost into a regular debate. Coue, the Nancy exponent of auto-suggestion, was delighted. Even doctors caught the enthusiasm. One begged Coue to give a special demonstration for the medical profession. Coue assured the physicians he was unable to stay, but pointed out his teaching was the same for doctors as for laymen. He said it was not intended as a substitute for medicine but was an adjunct to it.

The only man who could be persuaded to mount the platform when Coue called for subjects on which to experiment was the only one on whom the tests failed. About half a dozen women discovered they could not unclasp their hands or drop a bunch of keys while thinking "I can't."

A woman suggested it would be dangerous to place the power of auto-suggestion at the disposal of criminals.

"No, not at all," flashed Coue. "On the contrary, with 'Day by Day' I am getting better and better." I am convinced auto-suggestion applied to reformatories would give splendid results."

Have You Piles?

Then You Have Something to Learn.

Thousands who have piles have not learned that quick and permanent relief can only be accomplished with internal medicine. Neither cutting nor any amount of treatment with ointments and suppositories will remove the cause.

Bad circulation causes piles. There is a complete stagnation of blood in the lower bowel and a weakening of the parts. Dr. J. S. Leonard has found the remedy. His prescription, HEM-ROID, is now sold by all druggists. Dr. Leonard tried it in 10,000 cases with the marvelous result of success in 98 per cent, and then decided it should be sold under a rigid money-back guarantee.

Don't waste any more time with outside applications. Get a package of HEM-ROID from Wolff-Wilson Drug Co. today. It has given safe and lasting relief to thousands and should do the same for you—it sells everywhere.

Money wanted or money to loan—see the Post-Dispatch want pages for

WHAT \$100.00 WILL DO FOR ME AND MY FAMILY

"This circular contains a few statements which are vitally important to me. I will read it."

"One hundred dollars placed with the Liberty Hospital Building Company will yield me seven per cent per annum. I can get seven per cent on my money in other enterprises, also, and presumably just as well secured."

"But what is this I see?"

"One hundred dollars placed with the Liberty Hospital Building Company will give me perpetual health insurance. Surely this can't be true. Yes, that is what it says. The staff of Liberty Hospital will give to all holders of stock at least one hundred dollars, free service in any and all branches of therapy. What does that mean? Let's see!"

"It says, if I am sick, I am to be treated free of charge, not to pay one cent for service. Surely not. But that's what it says. If I need Osteopathic treatments, I can go to the Hospital at any time and receive treatment free, as long as I am the holder of at least one share of stock in the Liberty Hospital Building Company. Surely, they will not do all this. But this is what it says, as plain as can be."

"If I need a surgical operation, regardless of its character or its cost, I can have it free, not pay one cent for it."

"If I need my eyes treated, I can have this done by a specialist, absolutely free."

"If I need glasses, I can get them at actual cost of labor and material."

"If I need a prescription, I can get it from any member of the staff at the Hospital without paying one cent for the examination or for the writing of the prescription. I can't believe that they are in earnest when they say they will do all this, yet it says so in plain English."

"If I am sick and need to occupy a bed in the Hospital, I can do so at a reduction in price of twenty-five per cent from what other patients pay! And listen! What is this?"

"If I am out of a job and haven't a cent, the Hospital will take care of me and my certificate will be accepted as security and held by the Hospital until I get on my feet again, the Hospital accepting all payments until the actual cost of caring for me in the Hospital is paid."

"I thought the first statement was considerable to give, but it seems that if I read on, the offer becomes more liberal!"

"I have been going to an Osteopath for treatments about once a week for some time. I have been paying three dollars per treatment. If I keep up that rate for a year I will have had one hundred and fifty-six dollars' worth of treatment. Yet I would not have paid a cent if I had had one hundred dollars in the Liberty Hospital Building Company. The one hundred dollar certificate that I would earn would earn this for me, and in addition to that, I would earn me seven per cent interest."

"If I go to the oculist, he charges me three to five dollars per eye. I could get all I need, whether it is five or five hundred treatments, for this for me in addition to the seven per cent interest. I don't see how it can all be done."

"But listen to this!"

"I would not have to wait until the new building is completed and Washington, but I could begin to take advantage of any of the services of the Liberty Hospital."

"This is the best thing I have ever heard of; I am going to know how soon I will need it, and if I never use it but I don't care. I will secure with five dollars, and I am paying seven per cent interest and to top off all this wonderful offer, I am getting the best thing I have ever seen, and here goes my \$100.00. I am going to tell the other ones about it."

Notice of Election

February 9, 1923

Pursuant to Ordinance No. 32019 approved November 18, 1922.

We, the undersigned, hereby give notice that a special election will be held in the City of St. Louis on Friday, February 9, 1923, at the various polling places in the City hereinafter set out, between the hours of six o'clock A. M., and seven o'clock P. M., at which election there will be submitted to the qualified voters of the City of St. Louis for their approval or rejection, the several separately stated propositions as set out in said Ordinance No. 32019, which in words and figures as follows:

- Ordinance 32019.**
- Section One.** An ordinance authorizing and directing the holding of an election for the purpose of submitting to the qualified voters of the City of St. Louis, Missouri, the following propositions:
- Section Two.** Notice of the said election shall be given by publication of this order in the "City Journal" once each week for four weeks, the last publication to be within two weeks of the date of the election.
- Section Three.** The Board of Election Commissioners of the City of St. Louis shall provide the ballots, conduct the election and certify the result thereof to the Board of Aldermen of the City of St. Louis as required by law.
- Section Four.** Twenty-one separate propositions, as now hereinafter stated, shall be submitted to the qualified voters of the said City at the said special election, and the poll tax to be used therefor shall be in the following form:
- PROPOSITION ONE.** For establishing, opening and widening streets, Eight Million Dollars. For increase of debt, Proposition One—Yes. For increase of debt, Proposition One—No.
- PROPOSITION TWO.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Two—Yes. For increase of debt, Proposition Two—No.
- PROPOSITION THREE.** For the paving, repaving and otherwise improving of streets, Four Million Dollars. For increase of debt, Proposition Three—Yes. For increase of debt, Proposition Three—No.
- PROPOSITION FOUR.** For the purchase and installation of equipment for a public electric power plant, Eight Million Dollars. For increase of debt, Proposition Four—Yes. For increase of debt, Proposition Four—No.
- PROPOSITION FIVE.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Five—Yes. For increase of debt, Proposition Five—No.
- PROPOSITION SIX.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Six—Yes. For increase of debt, Proposition Six—No.
- PROPOSITION SEVEN.** For the improvement of the city streets, Four Million Dollars. For increase of debt, Proposition Seven—Yes. For increase of debt, Proposition Seven—No.
- PROPOSITION EIGHT.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Eight—Yes. For increase of debt, Proposition Eight—No.
- PROPOSITION NINE.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Nine—Yes. For increase of debt, Proposition Nine—No.
- PROPOSITION TEN.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Ten—Yes. For increase of debt, Proposition Ten—No.
- PROPOSITION ELEVEN.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Eleven—Yes. For increase of debt, Proposition Eleven—No.
- PROPOSITION TWELVE.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Twelve—Yes. For increase of debt, Proposition Twelve—No.
- PROPOSITION THIRTEEN.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Thirteen—Yes. For increase of debt, Proposition Thirteen—No.
- PROPOSITION FOURTEEN.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Fourteen—Yes. For increase of debt, Proposition Fourteen—No.
- PROPOSITION FIFTEEN.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Fifteen—Yes. For increase of debt, Proposition Fifteen—No.
- PROPOSITION SIXTEEN.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Sixteen—Yes. For increase of debt, Proposition Sixteen—No.
- PROPOSITION SEVENTEEN.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Seventeen—Yes. For increase of debt, Proposition Seventeen—No.
- PROPOSITION EIGHTEEN.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Eighteen—Yes. For increase of debt, Proposition Eighteen—No.
- PROPOSITION NINETEEN.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Nineteen—Yes. For increase of debt, Proposition Nineteen—No.
- PROPOSITION TWENTY.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Twenty—Yes. For increase of debt, Proposition Twenty—No.
- PROPOSITION TWENTY-ONE.** For the acquisition of land and the construction of a new waterworks plant, Twelve Million Dollars. For increase of debt, Proposition Twenty-One—Yes. For increase of debt, Proposition Twenty-One—No.

The polling places in the 618 precincts, respectively, of the City of St. Louis, whereat the said election will be held, will be located at the following places:

WARD ONE.	WARD SIX.	WARD ELEVEN.	WARD TWENTY-ONE.

If Fans Coast League in Open War Against Major Draft Rule

Votes Fine of \$500 for Club Which Accepts Player on Option.

DIVISION OF OPINION

Club Owners Stand Four to Four—McCarthy's Vote Decides.

Major Leagues Will Raid Coast Clubs, if War Starts—McGraw

NEW YORK, Jan. 16.—The Coast League and the major leagues are in a state of open warfare over the draft rule which permits a player to be signed by a major league club on a one-year option contract.

"I doubt if McCarthy, who talked so much about Judge Landis the other day, can keep his entire league behind him in the matter of this draft rule," said McGraw yesterday.

"Are there any players left in the Pacific Coast League that you would want in case there is a war?"

"If there are any we will go and get them," said McGraw.

"We could get almost any one we wanted. Of course, there are some who like to play on the coast. Generally speaking, however, we could get the men we wanted and they couldn't take any away from the major leagues," said McGraw.

The Pacific Coast League which operated as an outlaw circuit was a "terrible bust." It was offered the Los Angeles club in 1906 for \$100,000.

SAN FRANCISCO, Cal., Jan. 16.—Although divided in sentiment by four votes to four, the Pacific Coast Baseball League has gone on record as declaring open war on the new draft regulation of the major leagues.

President William H. McCarthy, exercising his power as a league director, cast the deciding vote on a resolution which was, in effect, a measure authorizing his own side against the major leagues.

The major leagues at their meeting at New York in December voted to send no players to Class A clubs after the season.

The Pacific Coast League placed a fine of \$500 on any club which accepts a player after the season. It makes the player ineligible to play in the league and forfeits all games in which the player participates.

"True, it became necessary for me to exercise the right to vote as a director with no other than the directors of this league, with no consideration of the right or wrong of the matter," said McCarthy.

McCarthy, personally, instructing newspaper men to write the story of the resolution in advance, then in justice to the loyal four directors who supported him, in justice to the clubs who want progressive baseball, he cast the deciding vote.

The clubs divided as follows:

San Francisco, Seattle, Vernon, Sacramento voted in favor of the proposed return bout for the world's heavyweight championship between Jack Dempsey and Jess Willard.

CHICAGO, Jan. 16.—Joe Stecher, a two-fall match here last night from Yonif Hussar, the Turk, the first of the Stecher fight, a 10-minute and 16-minute. Both rounds held.

CINCINNATI, O.—Earl Neale, who held out Cincinnati Reds, will probably be here last night from Yonif Hussar, the Turk, the first of the Stecher fight, a 10-minute and 16-minute. Both rounds held.

CATTLE RECEIPTS MODERATE AND MARKET IS STEADY

[illegible]

from 100 to 110 cents a bushel, and the latter figure being the top of the early trade. Strong-weight pigs were steady to strong, selling at \$8 to \$8.25 to 110 to 130 lbs. Trade in pews was about steady, but Monday's general range for this class, being \$7.25 to \$7.75, was a general range for packing sows was \$7.25 to \$7.35; market 100 lbs. higher. \$7.25 about steady at \$5.75 and \$6.50.

SHEEP—With another small supply on the market, much the same was made as the Monday trade, but that offered moved freely enough, but those that offered

not fat were slow sellers and prices not very satisfactory. Best fat lambs sold at \$13.50/\$14.25, plainers none not quite fat, \$13.50/\$14.25, poor grades \$12.50/\$13.25, wethers \$10.00/11, mutton sheep \$7.00/7.50, sheep and bucks \$2.50/\$4 and canners \$4.00.

HORSES AND MULES—Markets in this department again show the firm trend characteristic of last week's trade. Horses on commission for the two days approximately 800 head and mules in firm demand right at the 2000 mark. Demand is broad from both Southern and Eastern territory.

Livestock Elsewhere

CHICAGO, Jan. 16 (U. S. Dept. of Agriculture).—Market quotations for livestock and poultry at the Union Stock Yard, Chicago, Jan. 16: **Cattle.**—Receipts, 3,000; early morning market 25¢ higher; later slow, bulk 13¢ to 200 pound averages, \$3.40 to \$3.50; to \$3.60; bulk—225 to 300 pound butchers, \$3.15 to \$3.25; packing cows mostly \$2.75 to \$3.00; desirable cows, \$3.85 to \$4.00; heavy hogs, \$3.15 to \$3.30; light hogs, \$3.15 to \$3.30; light, \$3.60 to \$3.75; heavy, \$3.65 to \$3.80; packing, smooth, \$7.35 to \$7.75; packing, smooth, rough, \$7.75 to \$8.00; killing pigs, \$6.00 to \$6.25. **—Receipts.** 12,000; slow; better.

grabs and steers, \$2.50@3.00; other grades and steers, \$2.00@2.50; top light steers, \$8.50@10; other killing classes above steady; undertone weak; butcher, she-stock and bulls; veal calves and lambs, \$1.00@1.50; hogs, \$1.00@1.50; steady; bulk desirable veal calves to packers, \$50.50@11; choice selections upward to \$12.25 to outsiders; bulk stockers at \$10.00, \$5.00, 7.50.

Sheep—Receipts, 15,000; opening slow; fat lambs and yearlings above steady; cribs, top, \$14.50, to packers; some held higher; three loads, choice 83-pound fed Colorado yearlings, \$12.50; also some to lower; desirable 70-pound feeding lambs, \$14.50.

Boston Wool Market.

Special to the Post-Dispatch.
BOSTON, Jan. 16.—The Summer
wool market continued today to display
exceedingly strong tone. Melbourne also
was reported strong. The demand for cas-
sels-hair goods in the garment trade, it was
said, has had a heartening effect on the
good market. Stocks are low and foreign
markets are attracting much attention for
dealers. Texas and California wools are
strong and unchanged.

KELLOGG'S BRAN

gives permanent relief

because it is ALL BRAN!

With the most dangerous diseases close on the trail of sufferers from constipation, there's no time to waste on foods with a low bran content! The one answer to constipation is BRAN that is ALL BRAN! That's why you should eat Kellogg's—and eat it regularly; at least two tablespoonfuls daily; as much with each meal in chronic cases! KELLOGG'S BRAN IS SCIENTIFICALLY PREPARED TO RELIEVE SUFFERING HUMANITY AS NO OTHER FOOD CAN!

Don't delay a minute! Get started on Kellogg's Bran to-day and your health will steadily improve and bowel conditions return to normal, no matter how long you have suffered with constipation, mild or chronic.

Remember that Kellogg's Bran is not an artificial laxative, but nature's own bulk food that acts as sweeper, cleanser and purifier. Its work for health is wonderful! Besides, bran contains the most valuable mineral salts and other life-sustaining ele-

ments—it is a blood maker and bone and tissue-builder!

Kellogg's Bran, being cooked and crumbled, is delicious eaten as a cereal, or sprinkled on hot or cold cereals. Another happy way to serve Kellogg's Bran is to cook it with your favorite hot cereal. In preparation, add two tablespoonfuls of bran for each person, cooking the cereal as usual.

You can make the most delightful muffins, raisin bread, pancakes, macaroons, etc., with Kellogg's Bran—and it's fine in gravies, soups and purees.

The big thing is to get started on Kellogg's Bran quickly—for the sake of the health of your entire family—AND SERVE IT REGULARLY! First-class hotels and clubs serve Kellogg's Bran in individual packages. Ask for it at your restaurant!

All grocers sell Kellogg's Bran.

MAPLE WALNUT

CREAM one-half cup of milk, one cup light brown sugar, one egg; mix well. Add the one-half teaspoon butter, one-half cup confectionery sugar, one-half cup maple flavoring, one-half cup milk. Then sift together one-half teaspoon salt, one-half cup baking powder and one-half cup walnuts.

BUCKWHEAT CAKES

WHAT used always to be found on the great American breakfast table from November to March are made as follows: Scald one pint of milk by pouring on it one pint boiling water. Dissolve a yeast cake in lukewarm water and add to the milk and water when it is lukewarm. One teaspoon salt, one of sugar, buckwheat flour to make batter. Let rise over night. Add more water or milk and more flour to what is left and let rise for next day. Add a little baking soda if needed.

Why Beauty Depends Upon Your Teeth

By Doris Doscher.

Copyright, 1923.

THE plainest face, when a smile fleets across it, causing the lips to part, revealing two rows of pearly teeth, is always attractive. Taking care of the teeth is necessary to good looks as well as good health. If this is true, it is also true that no matter how beautiful you may be, how finely chiseled your features or how perfect your complexion, you are bound to lose the charm of all these if your teeth are defective, and the term defective covers irregularities as well as decayed or uncared for teeth.

A good dentist can do much toward placing the teeth evenly when they have a tendency to protrude or grow out of the regular line. This usually occurs when the first tooth remains in while the second tooth is coming through the gums. This point of the child's development should be most carefully watched, and the first tooth removed so as to give ample space to the incoming tooth. But even if this should have been neglected in the formation of the tooth, a competent dentist can do much in gently spreading and spacing the teeth until they come back into an even line.

Never tolerate a deformity of the teeth that possibly can be rectified, because if the teeth are not properly placed the "bite" is broken, and improper mastication of the food is bound to result. This applies to false teeth as well, and those who must resort to artificial teeth should be sure that they are so carefully fitted that they are able to clinch the teeth perfectly in every bite.

It is a well-known fact that the

reason we lose our teeth at such an early age is because we have refined our food to a point where there is hardly any necessity for chewing hard substances which would thoroughly exercise the gums as well as strengthen the teeth. So if we do not get sufficient of this kind of exercise for the gums by masticating the food, it is essential that we should thoroughly massage the gums with the finger tips.

In the wearing of artificial plates, bridges or partial plates, infinite care must be exercised to keep the teeth not only scrupulously clean in appearance, but antiseptically clean as well. You should be no more willing to eat the meal and neglect the washing of your teeth than you would be to eat your dinner on plates left from the previous meal.

The hardest substance in the body is the enamel, and when the teeth are not thoroughly washed, the acid formed in the mouth will even eat this hard enamel and it is thus that cavities are formed.

The slightest cavity should be immediately attended to, even before pain gives warning of its presence. This will prolong the life of the tooth and filling cavities in the earliest stage postpones the disagreeable day when the tooth will have to be extracted. Just obeying these few hints will in many cases prevent that excruciating pain that makes a coward of the strongest man, causing him to run around the block three times rather than visit the dentist.

It is possible for the dentist nowadays to improve and fill out the shape of the mouth, when the face is marred from the lack of teeth, in such a way that even if the teeth are artificial they do not detract from the appearance, but rather add to it. Protruding teeth, or, as they are commonly called, buck teeth, or other irregularities are easily remedied. They make such a great difference in your appearance that you should not tolerate any longer any defects that can be remedied.

Whole Wheat Gingerbread

FOUR tablespoons sugar, ½ cup shortening, 2 eggs, 1 teaspoon baking soda, ½ cup milk, 2 cups flour, ½ teaspoon salt, 3 tablespoons chopped and candied lemon peel, 2 cups whole wheat flour, ½ cup seed raisins, 1½ cups molasses, ½ cup chopped nut meats, 1 teaspoon powdered ginger, ½ teaspoon powdered mace, ½ teaspoon powdered cinnamon. Mix the white and whole wheat flour, add peel, raisins, nuts, spices and salt. Melt shortening, molasses and sugar, then cool and add them with eggs well beaten, with soda mixed in milk. Mix well and turn into greased and floured cake tin. Bake in moderate oven one hour. Sufficient for one large cake of gingerbread.

Princess Andrew of Russia has made quite a name for herself in England as a designer of dresses for both the stage and society.

DATE OR RAISIN CAKE

IN a small saucepan put one-half cup of dates and one-half cup of raisins. Over these pour one cup of hot water. Cover and let stand until raisins are plump. In your mixing bowl put one cup sugar, one tablespoon butter, one tablespoon lard, one egg. Beat, beat, beat to creamy mass. Dissolve one level teaspoon of soda in the date and raisin mixture, combine the two mixtures, then add one and one-half cups of flour. Bake in a shallow pan and cut in squares.

Sausage With Baked Potatoes

CHOOSE medium-sized potatoes, scrub and dry. With an apple corer make a hole through each. Stuff each potato by pressing sausage links or sausage meat into the opening and bake in hot oven for about 30 minutes.

Uncle Sam Says—Arrangement of the Kitchen

This booklet, which is issued by the Office of Experiment Stations, discusses the relation of the kitchen to other parts of the house, size of the kitchen, its floors, walls and ceilings, lighting, ventilation and the location of permanent equipment.

Proper height of working surfaces, selection of the stove and sink and choice of their location complete this treatise, which will be found very valuable as aid in the layout of new homes.

Readers of the Post-Dispatch may obtain a copy of this booklet free as long as the free edition lasts by writing to the Division of Publications, Department of Agriculture, Washington, D. C., asking for "F. B. 607."

Brown Coconut Macaroons

ONE pound brown sugar, 4 eggs, ½ pound coconut, 2 teaspoons cinnamon, 1 teaspoon mace, 2 heaping teaspoons baking powder, 2½ cups of flour. Drop these from spoon and bake.

Love Letters That Made History

By JOSEPH KAYE
General Sherman and Ellen Ewing

(Copyright, 1923.)

Gen. Sherman's love letters are not supposed to be. When his father died in 1829 he went to live with the family of the Hon. Thomas Boyle of Ohio, who was then Senator from his State. The lad was treated as a son and the friendship which grew up between him and the Senator's daughter, Ellen, became deeper as the years went by until the couple were married. But in the lengthy correspondence which passed between Sherman and his fiancée, the following, written from West Point when he was 19 and Ellen 14, is one of the most endearing letters:

"West Point, N. Y., Nov. 1, 1832."

"I have been intending for some time to write to you for the purpose of acknowledging the reception of those slippers which you were kind enough to make for me some time since. They were brought by William Irvin. They fit exactly, but are so neat and beautiful as to preclude all ideas of my ever wearing them. Indeed, it would amount to sacrilege for me to do so. I will keep them carefully in remembrance of her who

gave them and hope that at some time or other I will be able to present something in return as acceptable as these are to me. Why is it that you have been silent so long? Did you not receive my last, written almost immediately upon reception of yours? I have been anxious lest you may have been unwell or had returned home, and hope that I may soon be relieved by hearing from you."

"Probably upon Miss Ewing's pointed comment on the politeness of his epistles, Sherman answered: 'I cannot express how great was my pleasure upon receiving this morning your very kind letter. I can only show my sense of it by punctuality.'"

"I sincerely thank you for pardoning me the apparent adherence to ceremony in my letter to you, for, believe me, no one regrets more the disposition of this world to surround the sweetest and best pleasures of this life with the cold garb of formality, and if at any time I should bow to its dictates, it is because I fear that a departure from them would give offense."

He knows what's good, the little scamp!

You can't blame him, can you? For it's an Enterprise pie, and supper time's a long way off.

Made with Valier's Enterprise Flour, whatever you bake is delicious—pie crust, cakes, doughnuts, muffins, waffles, bread.

Enterprise gives to baking the rich, full flavor which comes only from fully-matured, hard wheat specially selected and then slowly milled by master millers.

Once you have used Enterprise Flour you will understand why thousands of women use no other. They pay a little more for Enterprise—gladly. For they know by experience that it prevents needless failures, produces finer baking and goes further. Try a sack of Enterprise today.

A Mistress in the Art of Fine Cooking

NO ONE took greater pride in providing her family with wholesome, healthful foods than Grandmother. No famous chef loved the art of fine cooking better, or took keener delight in having delicious bakings, than the lovable pioneer women whose lives are now memories.

What pains she resorted to, to see that the flour she used was the best obtainable. Only the choicest, most carefully milled flour was suitable for her cooking. That's why she always used Stanard's Royal Patent.

For three generations Royal Patent has been the favorite family flour of the best cooks. The Big Red "1" on the bag is the symbol of quality flour—don't substitute.

Stanard's

UPSETS.

WHEN Mr. Dempsey walloped Jess, And all the laurels won, The experts had advanced the guess That it could not be done. But notwithstanding what they said The crown is now on Dempsey's head.

When Kaiser Wilhelm went to war, And his defiance hurled; The outlook wasn't rosy for The balance of the world. But victory was with the French And Kaiser Bill is on the bench.

When Huggins won the championship And took the Browns' law, It was a cinch that he would whip The crew of John McGraw. The tin was good, but just the same The Yankees didn't win a game.

When Reed decided he would stay And vindicate himself, The Democrats declared that they Would put him on the shelf. But Jim, instead of getting beat, Is sitting pretty in his seat.

Four years ago the profiteers Were raking in the tin. Not thinking that in future years Reaction would set in. But with a corrugated brow We find them scratching gravel now.

THEY KNOW.

"Bottlers Place Ban on 'Pop' as Soft Drink." "Pop" is a soft drink in a hard bottle. Ask any umpire.

See where Chief "Bacon Rind" went to Washington to ask the "Great White Father" for an increased allowance for the Osages. He ought to be able to bring home the bacon.

A masher is now called a "shick." Probably on account of his check.

One of the items of the coming bond issue election is a \$100,000 aquarium. Must be going to stock it with solid gold fish.

Would a city-owned aquarium be classed as an eleemosynary institution?

However, let's have one at all hazards. We'll never be in the swim till we have an aquarium.

THEY ALL LOOK ALIKE.

Princess Mary is expecting a visit from the stork. But he will call at many a hotel before visiting royalty. Her stork plays no favorites.

There is a player on the U. of P. team named Label Goldblatt. Kind of a gold label so to speak.

Cowboy Padgett is a rising welterweight. After rising we hope he doesn't fall like Cowboy Willard.

In a battle with Jack Dempsey Jess Willard would have everything to gain and nothing to lose but about 60 pounds of surplus fat.

All of which indicates that Jess has a fat chance.

The remark of President McCarthy of the Pacific Coast League that the draft agreement between the major and minor leagues was a "scrap of paper" has resulted in a lively scrap on paper.

MY FAVORITE STORIES

By IRVIN S. COBB.

ONE OF THOSE NATURE-FAKING YARNS.

A GENTLEMAN of social habits came home one evening to be confronted by a wife bristling with indignation. No sooner had he opened the front door of the apartment than she fired a blast at him. "Why, my dear," he said, "what's the matter?" "Water enough," she answered. "I thought you told me that you were going down to Belmont track yesterday afternoon with a party of men?" "That's right," he said, "what of it?" "Then perhaps you can explain this," she said. "This morning I sent the suit you wore yesterday out to be pressed. But first I went through the pockets and in one of the pockets I found a card and on the card was written in your handwriting: 'Evelyn, 2161 Fitzroy.' Now then, what does this mean?"

Without a moment's hesitation the husband answered: "My dear child," he said, soothingly, "the thing is simplicity itself. 'Evelyn' is the name of a racehorse—a friend gave me a tip on her. And '2161' were the odds on her for first and second place. 'Fitzroy' is the name of the jockey. Surely you've heard of Fitzroy, the famous jockey? Now then, aren't you ashamed that you suspected me?" The lady admitted that she might have been a bit hasty in jumping at conclusions. She dried her tears and peace descended upon the household. On the following evening the husband entered the flat at peace with the world and whistling a merry catch. An ominous silence greeted him. "Hello, dearie," he hailed. "How do you feel?" "I'm quite all right, considering," answered his wife, frigidly. "Any mail here for me?" "You might look and see." "Anybody drop in today?" "No." "Has anything happened at all?" "Well," she said, "about 3 o'clock this afternoon your racehorse called up and asked for you."

STATE'S ATTORNEY DENOUNCES HERRING SLAYERS; DEFENSE WAIVES ARGUMENT

Crowd About Mine "Wanted to Provoke Trouble—They Were Like Buzzards That Alight on Tree With Carrion Beneath," Declares Prosecutor Duty.

CASE WILL BE GIVEN TO JURY TOMORROW

Voluminous Instructions Submitted by Each Side to Be Read at 10 A. M.—Attorney-General "Satisfied" by State's Case.

By a Staff Correspondent of the Post-Dispatch.
MARION, Ill., Jan. 15. — Arguments were begun today in the trial of Otis Clark, Bert Grace, Peter H. Lera, Lera Mann and Joseph C. Hagg, charged with the murder of Howard Hoffman in the Herrin massacre of June 22.

Judge Hartwell announced this afternoon that the defense had waived argument, and that after instructions the case would be submitted to the jury.

The judge said the voluminous instructions submitted by each side would be read at 10 a. m. tomorrow.

Attorney-General Brundage, after adjournment of court, "It has been an orderly and well-conducted case and I am well satisfied with the showing that the State has made."

Duty Opens Argument.
State's Attorney Delos Dufur, in the opening argument for the State, "We come clothed in the garment of a righteous cause. Duty, with no flash of shame representing the State of Illinois."

Duty promised to show how Illinois was the defense. He reminded the jury that if they gave the State, well as the defense a fair trial, criticism can come to your heads and hearts. He defined different kinds of jurors, the indifferent one, the one who would enforce only the law that suits him, and the one who would not enforce any law. Such a man as the last named, he said, does not deserve to inherit from his father or to enjoy the protection of the courts.

"Last and Worst" Kind.
"Last and worst," said Duty, the man who with the soft tread of a tiger steals into the jury box with some sinister motive.

"Flicking a jury," he continued, "is not an easy matter. The juror, when he tried to select a jury, a juror to deny the truth and a juror to betray the cause. Judas the dirty 10 pieces of silver and was out and hanged himself. There are only two gods for men to worship, the God of righteousness and right and the god of iniquity and wrong. We only ask that you men worship the God of righteousness and right and return a just verdict."

Duty told of the attempted operation of the Lester strip mine, mentioned labor under the protection of the guards. "Under the laws of Illinois," he said, "men have a right to protect their property, just as we have the right to protect your home or your smokehouse. I do not hesitate to say that under the conditions in this county it was foolhardy to try to operate that mine, but that is not the point. The laws of the country gave them a perfect right to operate it. They knew they were in trouble and they prepared for it."

He spoke of the number of men hanging around the mine property after the guards came. "There were more berry pickers out there," he said, "than I ever heard of in the history of Williamson County. Guards questioned them and one of them, more desperate than the rest, took half a handful of berries. He that I suppose he should have been incinerated, hanged, drawn and quartered and broken on the wheel. There was too much activity at the mine. These berry pickers, others wanted to provoke trouble. They went out there with no other purpose than to get these guards to something which they could not do 100 times. They were like buzzards that light on a dead tree when there's a carcass below. They came from the east, the west, the north and the south, as far as their instincts led. Who started the thing? Who were the first offenders? Who fired the first shots? "Early on that morning of June 22,"
